POLICY
INITIATIVE

The Role of NDBs in Brazil, Mexico, and Chile

USD 11 bn in 2015: Unique role connecting international finance, domestic governments, and local private sector actors; **well-positioned to help mobilize climate investments**

The Role of NDBs in Brazil, Mexico, and Chile

USD 11 bn in 2015: Unique role connecting international finance, domestic governments, and local private sector actors; **well-positioned to help mobilize climate investments**

Challenges:

- A lack of **operationalizable NDC mandates**, institutional capacity and experience for **adaptation**, and adequate finance and **risk mitigation instruments**

Opportunities:

- Develop appropriate **investment frameworks**
- **Track** climate finance throughout portfolios
- Enhance understanding of **risks and financial structuring** of climate financing projects in specific sectors
- Pursue new forms of **concessional and grant financing** while building **technical capacities**
- Develop **new climate finance instruments**

Innovative financing can help NDBs pilot and scale climate compatible infrastructure
